Service Men Continue To Acclaim Xmas Cartons

Correspondence Makes It Appear Local Plan Was of Unique Order; Jerry Rowan Says If Hearts Were Counted Instead of Heads, Narberth Would Be Bigger Than New York

In addition to the special messages from the Service Men which are being published from week to week, it should be remembered that additional postals are being received, without extra comment, reporting the receipt of the Christmas boxes.

This may be accepted as quite a soldier-like procedure, as the postal contained in the carton merely requested a signature, and many men under military orders quickly become inured to the necessity of not exceeding specific directions, so stern is the influence of a strict discipline.

Those relatives who are interested in learning whether or not the man in their household has been heard from may secure the information by communicating with OUR TOWN.

The mail which arrived this week makes it increasingly apparent that Narberth seems to be the only community which organized to send a gift-package at Christmas to each fellow-townsman on field duty with the Armed Forces, as will be gleaned from many of the following:

The fine Christmas present really made me feel proud to be from Narberth and I am sure all our other fellows are affected the same way. It was such a nice gift and everything in it can certainly be used, being so well chosen.

You should have heard the comments when every one in the barracks helped me unwrap the packages. They all wanted to know just where Narberth was and what kind of a town it was. They all wished that their home-town had Narberth's spirit. I can't tell you how much the gift means to me or how good I fell when I hear it said that "Narberth is on the ball."...and everyone is saying just that.

I want to thank you all sincerely for your thoughtfulness in sending me such a fine box of useful articles. I was amazed at the quantity and quality of the contents. The evidence of careful planning certainly did stand out! I was fortunate enough to have my wife here with me and before I opened each package we'd try to guess what it was. Each time, we were pleasantly surprised. The pictures of the service-flag raising ceremonies were very interesting and especially so to me since my mother, father, and sister were in one of them

Thank you again and a very Happy, Prosperous and Victorious New Year!

BILL ENSINGER

* * *

All I can say is I was amazed at the amount of time and money that was put into the swell box I received. Whoever selected the items really did a remarkable job. It surely meant a lot to me. Thanks to everyone.

ROBERT M. MASON

* * *

Words fail me in expressing my thanks for such thoughtfulness. Where words fail I substitute action. You have proven that you are mighty proud of your boys in the Service. We wn't let you down because we know you are behind us 100% and won't let us down.

F. B. COFFMAN

* * *

Not only a surprise, but infinitely useful—every item! Thanks! Thanks! Thanks!

THOMAS E. RYDER

* * *

It was a real thrill to receive that wonderful Christmas package whhic reached me in first-class condition. When the fellows saw the choice array of gifts, I was the envy of all in the barracks. How fine it makes a soldier feel to know that the folks back home are still thinking of him! If hearts were counted instead of heads, Narberth would be a bigger town than New York. Many thanks.

JERRY ROWAN

* * *

Thanks for the thoughful consideration. I only wish I could thank each contributor individually as well as the members of the committee for such splendid articles. Someone with previous experience as a soldier must have selected such gifts as these, which are so necessary for our comfort and relaxation. Many thanks indeed.

ROBERT E. BAKER

* * *

This postal is rather a small space to express my great appreciation for the very welcome box that you sent me. How proud (or should I say how extra proud) I was of Narberth! Thanks a lot, Narberth!

C. R. BATCHELOR

* * *

Received your much appreciated box of gifts. I thank you very much. I know each and every Narberth man in the Service thought it was a swell idea for the Narberth citizens to send us such wonderful giftts. Thanks once again to the fine people in my home town!

P. J. CURRAN

* * *

I received the wonderful box of gifts yesterday, two days before Christmas. It was grand and I am very grateful. Thank you and all the people who made this fine remembrance possible

HUGH LEAHY

* * *

Received the fine package and must thank you very much for your overwhelming generosity. It sure made Christmas for me down here in Texas.

D. S. DUNCAN

* * *

Received your fine package and certainly enjoyed every bit of it. You didn't miss a thing. I am sure if every soldier enjoyed it as much as I did, that many heartes were gladdened at Christmas - time. Thanks again for your great thoughtfulness.

WALTER WOOD, JR.

* * *

I am anxious to let you know how much the very complete package you sent me was appreciated. The care and thought used in the choice of articles were very easy to discover. The fact that many hours had obviously been spent in the selection of things a man in the Service could use, and yet be things that would not clutter up his equipment, was very flattering.

I am sure you will receive many letters like this one, but felt I should express my own gratitude by more than the post-card you en closed.

MAL FORSYTH

* * *

Please accept my appreciation and gratitude for your kind and practical remembrance at Christmas. It is good to know that in spite of your absence your friends at home so generously remember you.

E. J. GOUGH

* * *

It made me very happy to receive the gift-box, which was most complete. I could not help but think of the joy these boxes will bring to some of the other fellows from Narberth who are in a better position to help end the war than I am at present. Please accept my deep appreciation for this appropriate remembronce.

PAUL L. TAPP

* * *

Thonks to the Committee ond the citizens of Narberth for the wonderful gifts. It takes "Our Town" to do things rigst. Thanks a million.

MICHAEL J. SPINELLI

* * *

Thank you for the Christmas Box and contents. I hope all who received them appreciated these gifts as much as I did. I am very sure they rid, for how could they help it.

CHARLES A. JARVIS

* * *

Please accept my sincere thanks for the fine way you remembered me and the other men from Narberth at Christmas. The package came through in perfect shape. Everything has been admired by every one here and, so far as I can determine, Narberth alone remembrd hr men so well and so generously. Every item was more than welcome and all are now in use. Thanks again.

C. V. CARSON

* * *

The gift box was grand. The selection was fine and the pleasure of unwrapping each article individually was immense. Thankse no end.

JOHN MOSTELLER

* * *

Thank you ever so much for the very lovely gifts I received for Christmas. Every article was one that comes in handy for every soldier. And of the many things in the box, the two pictures of the flag-raising ceremony went big with me.

ROBERT GRAHAM, JR.

* * *

An expression such as this of the solidarity and thoughtfulness of the Home-Front is a wonderful stimulus to us on the War-Front. Many thanks.

O. W. WRIGHT

Yes, I received the box—and it's wonderful! I was just home on furlough and meant to see some one concerned, but time went too fast. Will write more when I get settled.

Legion Post Sees Two War Movies

Speakman Post Asks Cooperation in Scrap Drive

The Harold D. Speakman Post No. 356 held its monthly meeting on December 29. More than 50 members and guests attended what was the first of a series of meetings planned by Douglas C. Minor, the new commander.

Through the courtesy of the Bell Telephone Company, two war pictures were shown: "Target for Tonight," and "Battle for Egypt." The first picture, showing an actual bombing raid on Germany, turned out to be more than thrilling, especially for two guests of the evening, Seamen S. A. Byers and Jock Roberts, members of the British Navy temporarily stationed in Philadelphia, who recognized one of the men in the picture as a buddy from his home town in Scotland.

The Legion committee co-operating with the Scrap Drive wishes to call attention to the red, white and blue barrels which have been placed throughout the community especially for small scrap items such as keys, etc. They ask that you co-operate with the school children by turning in your tin cans to them and keep the barrels free for other items of scrap.

The Legion also asks that all those with suitable books for the service men bring them to the Legion Rooms for transfer to the U. S. O. A call has come to the Legion for a bugle in god condition. Anyone having such an article and wishing to give it for a very worthy war purpose please deliver it to the Legion Rooms for delivery to the proper authority.

Unbeaten Haverford High Helps Lower Merion Five Open League Race Saturday

The moment most Main Line basketball fans have been patiently awaiting is at hand. The Suburban Conference title chase is about to get underway.

Lower Merion High School, champion of all it surveys in Pennsylvania, and Havreford High School will kick off the lid in Section One when they clash in Downs Gym, Ardmore, Saturday night.

The game, originally carded for Friday, was moved back a day by mutual agreement. Coach Bill Anderson wasn't keen about the Maroon playing the night after the L. M. football dinner and Steve Juenger, Haverford coach, was eager for the postponement so that he might play with the Harrisburg Senators in the American Pro League that night.

Lower Merion, seeking its sixth straight Section One crown, will be a heavy favorite even though both teams will take the court with undefeated records. The Maroon outclassed Merchantville and Coatesville and defeated Chester after a stubborn battle while Haverford nosed out Radnor and Springfield in close games.

Haverford, with four veterans in its starting lineup, already has won more games than in the entire 1941-42 season, which was its poorest in history. While the Fords should be able to finish several notches above the cellar this year, they weren't too impressive in the opening games, being forced to come from behind to win on each occassion.

However, Lower Merion isn't taking the Fords lightly. The Red and Gold has a rangy team with only one player on the starting five under six feet and everyone admits it will take a team with plenty of height to beat L. M. Another thing that has Ardmore fans just a bit concerned is the fact that Haverford has had better success against the Maroon than any other league foe. L. M.'s last defeat in the league was administered by Haverford at Downs gym in the league opener two years ago.

"Haverford will be tought," moaned Coach Anderson yesterday, "They're awfully big and they've got to be good to beat Bartram down at Bartram as they did in a

Adopt Measures to Control Smallpox

Food Handlers in Boro Must Be Vaccinated

Measures to prevent the occurrence of smallpox in the Borough were adopted by the Narberth Board of Health Tuesday night.

In their regulations they went one step further than Lower Merion in requiring that all food handlers working in the Borough must present certificate of vaccination.

Arthur L. Cooke, who has now been called into the service, presided at the meeting.

The resolution of the Narberth Health Board follows:

"WHEREAS the infection of smallpox is known to exist in certain areas of this Commonwealth, and

"WHEREAS this infection may spread to the inhabitants of the Borough of Narberth, the Board of Health in regular meeting assembled on Tuesday evening, January 5th, 1943, adopted the following resolution for the protection of the Public Health:

"1. The Health Officer of this Board is hereby directed to exclude from the Borough of Narberth all persons known to come from any district in which there is smallpox, unless each such person presents to the Health Officer an acceptable certificate of recent vaccination.

"2. It is further required that all food handlers working in the Borough of Narberth, present to the Health Officer a certificate of smallpox vaccination, dated within five years.

"3. The Board of Health strongly recommends that all pupils in all schools in the Borough of Narberth be re-vaccinated against smallpox, unless they have been successfully vaccinated within five years.

"4. The Board of Health strongly recommends that all persons in the Borough of Narberth who have not been successfully vaccinated against smallpox within five years, be vaccinated immediately."

Refer Police "Pool" To D. A.'s Office

Deadline Set By Magistrate Was Up On Thursday

Investigation of Lower Merion's police football lottery was referred to the D.A.'s office in Norristown by Magistrate Walter B. Lownes, Jr., on Thursday.

Thursday was the deadline Magistrate Lownes set two weeks ago for the local police officials to investigate the football pool which the squire contends has been operated among both police and township employes.

Since Lower Merion police arrested a St. Joseph's College youth and the three Lower Merion High School athletes Magistrate Lownes has contended that they were discriminatory. He said that if the law was to be enforced it should be applied to all classes of people regardless of creed, race and age.

Police officials contend that the arrest of the high school was necessary to get the higher-ups.

Magistrate Lownes said he was assembling all the facts and turning them over to Disterict Attorney Frederick B. Smillie for what action he considered proper and necessary. The District Attorney has already said he did not consider the arrest of the boys was necessary. He has made no statement regarding reports that a police football pool has been in operation.

The District Attorney's office, Magistrate Lownes said, had both the investigating facilities and the power to handle cases where complaints have been made against local police officials.

Father Hamilton Reports From "Way-Down-Under"

Former Narberth Curate's Christmas Box Arrives Safely; Says Remembrance Brought Him Great Joy

Reverend Vincent F Hamilton, curate at St Margaret's Church in Narberth for a number of years, and who volunteered as a Chaplain soon after the war started, reported via Clipper air mail received this week that the Christmas box which local citizens sent him had arrived safely in the Southwest Pacific island where he has been located for the last 10 months.

This means that Father Hamilton is in the midst of the fierce fighting which is going on "Way Down Under" and direct word from him is bound to be of extraordinary interest to the members of his old parish and also to numerous others who were well acquainted with the popular priest.

It is also believed that there will be many who will desire to send a card or other remembrance occasionally to Father Hamilton, and for their benefit his official address may be obtained from the rectory of St. Margaret's Church.

It goes without saying that the lieutenant chaplain would be particularly grateful to hear from St Margaret's young men who are now in the fighting forces and it is hoped this information of his whereabouts will come to their notice and that as a result their reverend comrade will be flooded with messaes from the camps and war fronts.

Father Hamilton's letter is as follows:

U. S. A. for Narberth in my estimation means more than just United States of America. It means that Narberth and its citizens are all a part of the United States Army. Your gesture of remembrance for the men who have left the community in the service of our Country has received the praise of both men and officers of our organization. The box was received here in perfect condition four days before Christmas. (Editor's note: It left Narberth October 30, 1942.) My joy at being remembered by such loyal friends and neighbors was unbounded. I could not help, even with the Big Notice "DON'T OPEN UNTIL CHRISTMAS," to examine just one little package to what Good St. Nicholas had sent. I opened the choice pigskin case with knife, file and key-set and since then I have come to know all the different items.

How you good people ever were able to arrange such an expensive and elaborate gift-box is more than I can figure and that is the opinion of all who have seen the numerous articles. It is certainly a real proof that Narberth is back of its men in the Service the same as you always have been in every great emergency where the public spirit of our citizens is needed.

I could, under ordinary circumstances, go on for some time and tell of what is going on here in the "Way-Down-Under" of the South Pacific, but I know it would not be wise nor would it ever get past the spot censor. Nevertheless, our boys are doing magnificent work in this sector. Those of you at home know more of the total results of this struggle than we who are on the Front, as we can see only our own arena of action and are in no particular position to learn of the conditions at large.

What the boys desire here are, of all things, fresh milk, real ice-cream, Coca-Cola, yes, and a little good beer. None of these things have we seen during the ten months I have been here.

It is our hope that some time in the near future when our country is able to provide ships enough to get the necessities to carry on this war over here, that perhaps we can expect to get some of the little extras that help keep men civilized. Our men have gone though plenty, but you never hear them complain. They realize there is a job to be done and they are willing to give all they possess to accomplish what we have set out to do. Yet they rightfully look to YOU, the people at home, to keep up that life-line of urgently needed supplies.

Please permit me to again thank you all for your kind remembrance. Every hour of the day, through the medium of these gifts, the memory of Narberth is born home to me, since they are constantly in use. May I also take this opportunity to thank the thoughful person who has been so kind as to send me "OUR TOWN," which always receives immediate attention WHEN it gets through. I am feeling tops, even though I am a lot thinner than when back in St. Margaret's, and so I don't have much extra weight to carry.

It has been very quiet here for the last few hours, quite too quiet for comfort, and so I have to call this quits and see what is up. May the good God shower his very best blessing on our Country and especially Narberth. And may we all with holy hope expect to see the fulfilment of the Christmas Promise early in 1943; "Glory to God in the highest; and on earth peace to men of good-will."

I am
Gratefully yours,
(Rev.) Vincent F. Hamilton

Your box arrived to-day and for it many thanks. I have seen numerous boxes of various kinds come in to the boys (from relatives, never any from the home-town) and none of them shows the thoughtfulness that governed the incomparable make-up of this one from Narberth. In short, it reveals a master's touch. Every article shows careful and experienced selection. Again, many thanks.

I want to xpress my gratification for the nice Christemas box the Narberth citizens sent to me. The fine spirit you have shown is simply grand.

Thanks a lot for the big box of gifts. I certainly appreciate them and can put them to good use. Only Narberth could do a fine thing like this.

JAMES K. McCUTCHEON

This wonderful gesture on the part of the people of Narberth was indeed very thoughtful. In times like these we men in the Service are rally appreciative of anything recived from "home". Thank you very much. I have found every article in your highly attractive package to be very useful. Please remember me to my friends.

The package was received in good order. I am a very lucky soldier and I am also proud that I come from such a grand town as Narberth. Please accept my repeated thanks and best wishes.

JAMES W. FEY

It's really hard for me to tell you how much I appreciated the Christmas gifts. It surely was a swell selection; varied, and included everything a soldier can appreciate and use. When I opened the box the fellows in the barracks came around to help me. They all thought the gifts were pretty swell and they said the people of Narberth must be really "tops". I told them I'd lived there all my life and I knew it was a REAL community in every sense.

Congratulations to Bob Squier for his letter, which really "put the message across". Thanks for the pictures of the unfurling of the Service Flag. I recognized quite a few familiar faces. And thanks again for a swell assortment of swell gifts from a swell town.

DWIGHT L. MACKELL

I certainly was pleasantly surprised to receive such a splendid assortment of practical gifts from you folks back home. To those responsible for such a wonderful selection the town of Narberth owes a vote of thanks for a grand job well done. An unprecedented and kindly action like this makes me feel very proud of the "ole home town" and it is difficult to me to thank you enough.

CHARLES (CHUCKS) HARNDEN

Words fail me in knowing how to express my appreciation for the many useful gifts you sent me and which will be a constant reminder of the many friends at home.

Thanks a lot and a Happy New Year to you all.

The strong impression made on me by the Christmas box which I received urges me to once again thank you for the most thoughtful job that was ever done by any home town. As yet I haven't gone to Sea and many of the boys from Narberth are at present doing a bigger job than I am. To them this grand gift meant a real Christemas and I know they must have been touched even more than we were down here, if that is possible.

My time is coming in the near future and I promise that you will never be ashamed that I came from Narberth, as that is a town which has proved that it is entitled to the utmost best its boys can do.

LOU YOUNG, JR

* * *

It is not sufficient to merely sign and return the postal card to acknowledge receipt of such a grand box of timely and useful gifts. It is so nice to realize that our friends of Narberth are thinking of us who are away from home on Christmas and that they remember us so substantially. Please accept my sincere thanks.

GEORGE M. SHUSTED

* * *

Thank you very much for the fine gift box that I received. It certainly was a surprise to me and I appreciate it thoroughly. Every soldier who received one will be very grateful for it, particularly since most of us are miles from home. Your gift will raise the morale especially of those who are in active combat, as we never cease to think of home.

E. G. DEGLING

* * *

I thank all of the citizens of a swell town for the swell Christmas package. Narberth is tops positively.

FRANK M. SPINELLI

* * *

I would like Narberth to know that the box reached me and that it was swell. You all would have enjoyed watching the fellows in our barracks (who in turn were watching me with keen interest) as I took each fine and useful gift out of the box and unwrapped it. The package arrived about a week ago, but I just opened it this Christmas morning. Many, many thanks to everyone and a Happy New Year.

CHARLES C. TIMM

* * *

It is most difficult to express sufficient appreciation for your wonderful and most welcome Christmas package. Your selection of gifts most certainly included everything a man in the Service might possibly require. I know many of them will remain with me for years to come. Thanks, folks, and ever so much!

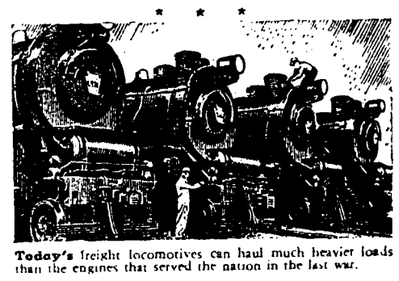
Lined up here, in smart military formation, is a "squad" of the mighty locomotives that work night and day for Uncle Sam.

Passenger engines, their specific job is to move troops. And, with the aid of other locomotives, they are doing this at a rate of *over a million troops a month!*

To the right are their comrades-in-arms, freight locomotives. Their job is to haul war materials. And they are *moving 1,250,000 tons of freight a mile every minute of a 24-hour day!*

Of course, to keep up a war pace like this requires the railroads to give right-of-way and a very large part of their passenger and freight equipment continuously to the war effort.

Naturally, under the circumstances, service to the public cannot be all that either you or we would like it to be. Trains may be late. Accommodations and seats may be hard to get. But—with the cooperation of travelers and shippers, the Office of Defense Transportation, the Army, the Navy and Government agencies—the railroads are doing, and will continue to do, everything within their power to provide the best service possible to the public in the midst of the greatest war civilization has ever known.



Today's freight locomotives can haul much heavier loads than the engines that served the nation in the last war.

A WAR MESSAGE ON MILK,

BUTTER AND ICE CREAM

How to help ensure your family's supply of essential Supplee Dairy Products

DURING these past months we have seen war change a tiny bobby pin into an essential machine-gun spring . . . a nylon stocking into a powder bag . . . a pound of coffee into three-quarters of a square inch of paper . . . a careless few miles of driving into a well-planned major shopping sortie.

We are all proud, humble and sanguine about such temporary changes in our normal living pattern . . . and about those that lie ahead of us.

All of us realize that changes are inevitable. Most of us ask nothing more than to be informed as fully as possible in order to plan adjustments.

Of all matters affecting our daily lives, nothing is more vital than food. Nutrition authorities have placed dairy products at the top of the list of necessary foods.

As you know, dairy products contain, besides other essential nutrients, a war material second almost to the metals and skills that supply our troops. It is — *butter-fat.*

You know also how this unmatched rich substance in your milk and cream, with its precious freight of vitamin A, becomes almost liquid gold in wartime. You have read how the ruthless banditry of the modern Huns has destroyed almost the entire supply in every conquered country . . . how deficient the nations of the Far East are.

Now you are hearing talk of an American "butter-fat stock-pile." Heavy cream has already gone into it — off the market. There are restrictions on supplies of butter and ice cream.

If you weren't informed, you might suppose that this means an actual mountain of butter is being piled up somewhere, like the gold at Ft. Knox. But actually it simply means that your Government and the Dairy Industry must look at all the butter-fat in all the milk products in America as a single source or "pool." From this must be taken your family's needs — and the needs of all your boys in service — and of our undernourished allies — and of the starving people we rescue. Each need must be filled from this single pool — even in the face of production and distribution difficulties.

That is where you can be wise — and generous. Realize that the present restrictions of our Government and whatever future ones become necessary are intended — NOT to deprive your family of whipped cream on your dessert or two pats of butter on your hot cakes — *but to see that you continue to get a fair and equal share of the existing supply of this suddenly precious war ingredient.*

You can help to bring about this equitable division by beginning right away to *balance your family's butter-fat budget daily.* This merely means that in thinking of your family's requirements, you include *all* butter-fat sources that are still available to you: if possible, plan and order for several days in advance so your Supplee driver can budget your needs with those of others — see that all are served.

Milk, cream, ice cream, butter, cheese — all contribute to your own family's "butter-fat pool." You will want to use them wisely. When butter plates don't appear at supper, ice cream for dessert, for example, can help supply needed elements. Homogenized milk, with cream mixed right through it, is an especially easily assimilated way of giving the older people and children a part of their share. And although the ice cream supply is limited, you can still send out for your favorite flavor and stand an excellent chance of getting it to balance a "low" day.

For this is still the richest, most fortunate nation left on earth. *(Imagine what hungry consternation the paragraph above would cause if it were published as advice to housewives in a Russian, or French, or German or even English paper!)* But there is no food to waste, nor would you want to waste any in the face of international hunger.

For our part, we are pledged to most strenuous effort for the continued good living and nourishment of your family and thousands of other American families. In these difficult times, we believe we can be of greater service than ever before.

We are arranging, for instance, that a supply of appealing, tasty Supplee Homogenized Milk and most other products be available in a store in every neighborhood to supplement your regular deliveries. These will provide needed milk nutrients for the extra calls of your war workers and children as well as serving your emergencies.

Our laboratories and the Sealtest Kitchen are diligently using our extensive research facilities to perfect new products which will take less from the butter-fat stock-pile. One of these may help to answer the cream problem at your house.

Shortly we will announce a quick, inexpensive new method we have developed *to double your butter volume* without loss of flavor. With so much of all the butter being made today earmarked for the Army and the Navy, you can imagine what a "find" that will be for every housewife. If you would like a copy of this "double-your-butter-back" recipe *in advance of publication*, drop us a card. We'll see that you get it — immediately — and other wartime suggestions for good nourishment and conservation as our people develop them.

No cost or obligation, naturally. Be sure to include your name and address, and send to Supplee-Wills-Jones Milk Company, 1523 N. 26th Street, Philadelphia, Pa.

The Narberth Business Council

WEEKLY NEWS LETTER TO YOU WHO LIVE AND BUY IN NARBERTH

We are entering a new phase of the war and within the last few days most of us have begun to realize it. It is a phase when swift and necessary war demands may change our mode of life over night. What can happen we can see in the ban against pleasure driving and the additional 25 percent curtailment in the use of heating oil.

Before long we may expect changes, equally as drastic, to occur in the business world. Measures to pool deliveries, limit shopping hours, ration our daily supplies still more are no longer theoretical possibilities. They are just around the corner.

The OPA for this area has already asked business organizations in suburban communities to form merchants' war-time committees. The function of these committees will be to study the war-time problems of local merchants and then, working with OPA officials, devise means of greater participation in war effort. It will be the objective of this committee to liberate more manpower for war and industrial services and, at the same time, keep intact minimum requirements to preserve the home front.

With the appointment of a local war-time merchants committee by the Narberth Borough Council the first steps will be taken in reorganizing our shopping practices. Through consultation with all your merchants the committee will try to shape local trade practices to the minimum needs of the householder.

Whatever may be necessary to win this war both OPA officials and the Narberth Business Council are in accord on a policy of keeping the public informed. Customer-merchant cooperation is now more essential than it ever was in war time.

Looking back over the past few weeks it is evident that much ground has been broken in establishing a more cordial relation between local merchants and their customers. They have already signed a working agreement for the duration of the war.

P. S.—An individual, a business council, a town grows, through constructive suggestions. You may have one that would point the way to a better future. If so, address it to the Narberth Business Council, Narberth, Pa. It will be confidentially treated and carefully considered.

War And The Hairdressing Business

War has increased the customer list but at the same time increased the problems of the hairdressing business, according to Louis Rano, proprietor of Rano's Hairdressing Studio at 37 N. Narberth av.

The proprietor also sees shorter hair-dos for women, especially those who are working in war plants. Feather bobs are popular and some industrial executives are hopeful that more women in industry will adopt the style, explains Rano.

Transportation and appointments, according to Rano, are two growing headaches of the business. Transportation is becoming more difficult every month and many women are late for appointments or missing them altogether.

For the women who skip their appointment Rano says the only solution is to make them pay the hairdresser for the lost time. He urges all women to make their appointments well in advance.

"Today," says Rano, "women have more money to spend and are spending more of it on themselves."
